

Kitchens and cabinets start from scratch

Looking for a room re-vamp, or even a total overhaul of your home? Artichoke kitchen and cabinetmakers could be the people to help. They have a bespoke-only policy, meaning that they design from scratch, specifically for you. And whether you are looking for just one piece of freestanding furniture, a new kitchen, bathroom, bedroom or an entire conversion of your town or country house, they can do it all.

All Artichoke cabinetmakers have a modern and innovative approach to cabinet making. They are as comfortable using modern materials, such as glass, steel, rubber, leather, chrome, basalt, terrazzo and marble, as they are with traditional materials such as wood. An impressive client history - with previous projects including Windsor Castle, Buckingham Palace and Russia's Winter Palace - means you'll know you're in safe hands. Most commissions come from private clients, but an increasing number of designers and architects are commissioning Artichoke, recognising its ability to produce innovative solutions to often complex design specifications. Bespoke kitchens start from £35,000 + VAT. Go on, aren't you worth it?
